

Unlimited Possibilities Family Care Home has quickly established itself as a leader among Charlotte-area residential care providers.

Its new community, The Village at Mint Hill, is thoughtfully designed to serve clients who are living with Alzheimer's and other dementia-related conditions. The Village at Mint Hill is characterized by its warm and homey atmosphere, its caring, professional staff, and its dedication to the latest treatment protocols for Alzheimer's and dementia.

SERVICES

Our services include:

- Private and semi-private rooms with private bath
- Daily activities, trips and social programs
- 24/7 care and supervision
- Individualized care plans
- Complete laundry care
- Medication management
- Customized meal planning...and more

At Unlimited Possibilities, we build relationships with not just our residents, but with their families as well. Together, we can create the environment you desire for your family member and provide the care you need. Warmth, respect skill, and sensitivity are our greatest assets at Unlimited Possibilities.

Family Care Home

“Caring for your loved ones as if they were our own.”

A revolutionary family care community dedicated to dementia care

Unlimited Possibilities Family Care Homes introduces The Village at Mint Hill, a collection of private family-care homes dedicated to caring for individuals with Alzheimer's and other forms of dementia.

Tending to a family member or loved one challenged by some form of dementia requires specialized care, which is why we created The Village at Mint Hill, located approximately 15 miles from downtown Charlotte. This dedicated-care community features the following:

- Licensed, highly-trained and caring staff, including a medical director affiliated with CMC, who will work with you to provide individualized service plans for your loved one
- A staff-to-patient ratio of 1:6
- Therapeutic activities including social, educational, devotional and recreational programs
- Well-appointed, secure homes, each with private rooms and private bathrooms

- Secured walking paths surrounded by beautifully manicured and maintained landscaping, gardens and grounds
- All meals and snacks, customized to each individual's dietary needs
- Flat-rate pricing that includes all ADLs and medication administration, transportation to medical appointments, and more...

Experts in the field of dementia and Alzheimer's disease agree that caring for this special needs population requires professionalism, kindness, and compassion—not to mention a living environment that is safe, yet stimulating. In response to the growing number of seniors with some form of dementia, we have created The Village at Mint Hill, a planned community where residents feel safe, secure and engaged.

Providing care for seniors with memory impairments can be challenging, but Unlimited Possibilities Family Care Home has designed a collection of

THE VILLAGE AT *Mint Hill*

private homes based on a graduated-care model with multiple levels of support. We understand that cognitive impairments affect every individual (and their loved ones) differently, so our caregivers are trained to provide the highest quality care on an individual basis at each stage of the resident's life.

The Village at Mint Hill has created a warm, inviting and therapeutic atmosphere for residents, their families and visitors. Instead of a single structure with many residents (which is not conducive to dementia care), the village plan of Mint Hill will feature smaller, single-story homes for 6 residents each. The homes will be organized around beautifully-designed open spaces that feature gardens, secure "ADA-friendly" walking trails, and native landscaping to improve air quality and provide shade.

Once our team of licensed professionals evaluates your loved one, we will work with you to create an individualized plan that is monitored on a daily basis. We focus on preserving each resident's dignity, encouraging independence and—as much as possible—enabling freedom of choice. The plan might include help with personal hygiene and grooming, dressing, showering and bathing, assistance with eating, mobility, socialization and medication management—as well as many other services not typically provided in more institutionalized settings.

If you feel Unlimited Possibilities Family Care Home can assist you in caring for a friend or loved one with dementia or Alzheimer's, visit our website today at **www.upfch.com** or call **704.249.7718** for more information.
